

PPE Opportunities

Kent Surrey & Sussex Academic Health Science Network

Are you interested in becoming one of our Improvement Board Members?

Established in 2013, along with 14 other Academic Health Science Networks (AHSNs), our role is to ensure the benefits of healthcare innovation reach as many patients and communities as quickly as possible.

Clinical needs and industry innovation are not always well aligned. Even when they are, the healthcare maze can make it very difficult for successful innovation to spread fast and wide.

We have developed an approach to look for the best innovations, and strengthen collaboration between industry, academia, health and social care.

The Academic Health Science Network has a Service Improvement Board, and Peter Carpenter (Director of Service Improvement), is seeking two patient/public representatives to be on the AHSN's Service Improvement Board.

We are seeking people who have an interest in service improvement, and are used to discussing such things with senior leaders in the health sector. Board meetings are three monthly, and the role would involve being sent papers before the meetings to review, and then attending the board meetings in the Crawley/Gatwick area. Travel expenses will be paid.

If you would like to find out more about this role please contact Peter Carpenter, Director of Improvement, KSS AHSN email; pcarpenter@nhs.net or call him on 07500608386

More information about the AHSN can be found at www.kssahsn.net
