The Ask

Culture

Context

79 per cent of people aged 18-44 have their smartphone with them 22 hours a day

Over 70 per cent of people own a smartphone

One in 20 searches on google are health-related

Context

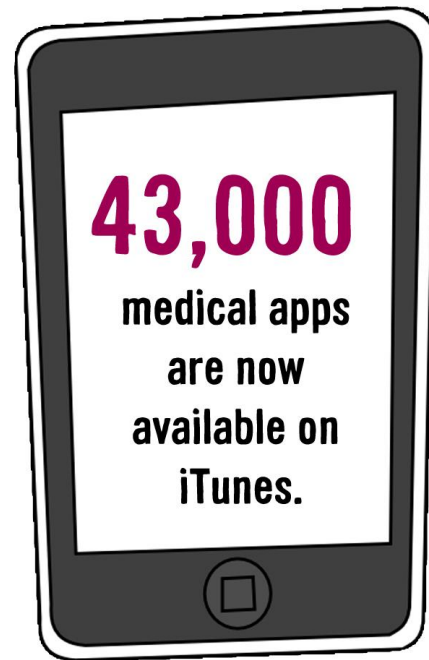

Context

2% of the population report any digitally enabled transaction with the NHS.

500 million people around the world will use a healthcare app this year.

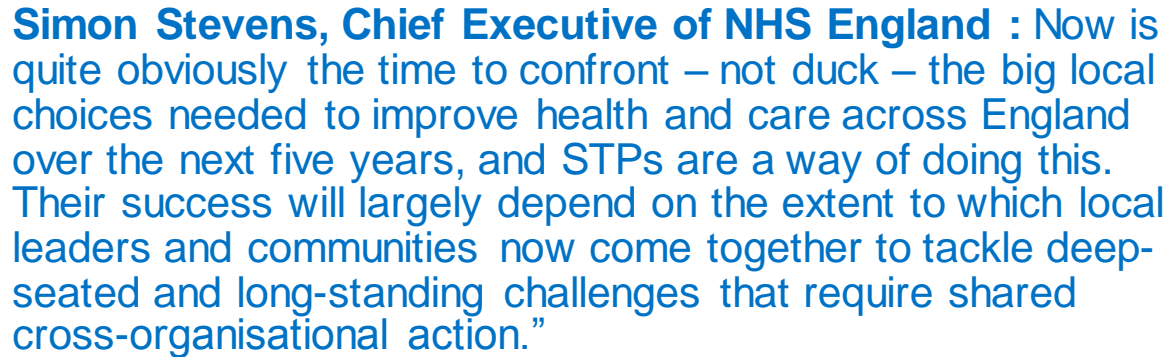

Context

“The ability to self-generate will continue to emphasize inexpensive personalized care....Healthcare stands to benefit greatly from these technologies, both from large industrial and academic developments in machine design and sophistication, as well as from the consumer and hobbyist level.” Podiatry Today 23/09/15

The Ask

A large, light blue speech bubble with a dark blue border and rounded corners, containing the text of the quote. It is positioned in the center of the slide, with a light blue rectangular shape behind its left side and a large light blue arrow pointing right behind its right side.

Simon Stevens, Chief Executive of NHS England : Now is quite obviously the time to confront – not duck – the big local choices needed to improve health and care across England over the next five years, and STPs are a way of doing this. Their success will largely depend on the extent to which local leaders and communities now come together to tackle deep-seated and long-standing challenges that require shared cross-organisational action.”

The Ask

1.

Confirm a **Footprint** detailing the partners and the governance arrangements to drive the local health and care system to become paper-free at the point of care

www.england.nhs.uk

2.

Providers baseline and benchmark progress towards being paper-free at the point of care using a new **Digital Maturity Self-Assessment Tool**

3.

Create a **Digital Roadmap** outlining the steps (operational and strategic) to be taken towards being paper-free at the point of care

4.

Embed the **Digital Roadmap** as a core foundation of the your **Sustainability and Transformation Plans**

The Ask ...Universal Capabilities

Professionals across care settings can access GP-held information on GP-prescribed medications, patient allergies and adverse reactions

Clinicians in urgent and emergency care settings can access key GP-held information for those patients previously identified by GPs as most likely to present (in U&EC)

Patients can access their GP record

GPs can refer electronically to secondary care

GPs receive timely electronic discharge summaries from secondary care

The Ask ...Universal Capabilities (2)

Social care receive timely electronic Assessment, Discharge and Withdrawal Notices from acute care

Clinicians in unscheduled care settings can access child protection information with social care professionals notified accordingly

Professionals across care settings made aware of end-of-life preference information

GPs and community pharmacists can utilise electronic prescriptions

Patients can book appointments and order repeat prescriptions from their GP practice

.....The Ask.....Transformation

Scale good practice

Use the STP footprint as an opportunity zone

Set challenging targets for utilisation

Be in the right place to compete for funding

Know the numbers

So Far So Easy....What About Culture?

Thank-You

Let's keep talking!
